## **BOOK SYNOPSIS**

"Doing Oral History is considered the premier guidebook to oral history, used by professional oral historians, public historians, archivists, and genealogists as a core text in college courses and throughout the public history community. The recent development of digital audio and video recording technology has continued to alter the practice of oral history, making it even easier to produce and disseminate quality recordings. At the same time, digital technology has complicated the preservation of the recordings, past and present. This basic manual offers detailed advice for setting up an oral history project, conducting interviews and using oral history for research, making video recordings, preserving oral history collections in archives and libraries, and teaching and presenting oral history"--
