BOOK SYNOPSIS

As the double jeopardy of homophobia and transphobia, and western imperialism, threaten to silence the voices of African lesbian, gay, bisexual, transgender and intersex (LGBTI) people, the Queer African Reader is a testament to the resistance and unrelenting power of these communities across Africa and her Diaspora. The Queer African Reader brings together academic writings, political analysis, life testimonies, conversations and artistic works by Africans that engage with the struggle for LGBTI liberation. The book aims to engage the audience from the perspective that various axes of identity - gender, race and class and others - interact to contribute to social inequality. It includes experiences from diverse African contexts and breaks away from the homogenisation of Africa as the homophobic continent to highlight the complexities of LGBTI lives and experiences through their own voices. Contributions from across the continent explore issues of identity, resistance, solidarity, pinkwashing, global politics, intersections of struggle, religion and culture, community, sex and love
