BOOK SYNOPSIS

There comes a time in every mans life when he says to himself, "Holy Sh*t! Im about to be eaten by a bear!" Tony James Slater went to Ecuador, determined to become a man. It never occurred to him that or die trying might be an option... The trouble with volunteering in a South American animal refuge is that everything wants a piece of you. And the trouble with being Tony, is that most of them got one. Just how do you look after something thats trying its damndest to kill you and eat you? And how do you find love when you a) dont speak the language, and b) are constantly covered in excrement and entrails? If only hed had some relevant experience. Other than owning a pet rabbit when he was nine. And if only hed bought some travel insurance... That Bear Ate My Pants is the hilarious tale of one mans quest to better himself. Whether losing a machete fight with a tree, picking dead tarantulas out of a tank of live ones or sewing the head back on to a partially decapitated crocodile, Tonys misadventures are ridiculous, unbelievable and always entertaining. Long before Sky One got involved, there were already plenty of Idiots Abroad. This is the story of one of them...
